## SMITH PROTESTS AT RAILWAY RATE RULE

El Paso's Congressman Believes Present Rate Is a Discrimination.

Washington, D. C., May 15.—A protest has been lodged with the Interstate Commerce commission by representative W. R. Smith, of Texas, against the proposal of the Southwestern lines to move the common point territory 100 miles to the east. The new tariff rates have not yet been filed with the commission. Mr. Smith has urged that persons in the territory affected file a formal protest with the commission. The Southwestern lines have restricted Texas common point territory by eliminating an area approximately 100 miles wide, running through the state north and south. It is believed that it will impose a burden on shippers in western Texas. In an interview with The Herald correspondent, congressman Smith said he did not know now whether it would affect El Paso directly, but he was inclined to think that it would not extend so far west.

## TRUST REFUGEES TO PRODUCE PAPERS

Many Subpoenaed Papers Cannot Be Found; May Have Been Destroyed.

New York, N. Y., May 15.—The refusal of the attorneys of the United States Steel corporation to produce papers wanted by the government, and the discovery that other documents which the corporation was subpoenaed to produce had either been destroyed or could not be found, furnished the sensation of yesterday's hearing of the government suit to dissolve the corporation.

The papers are two contracts between the American Sheet and Tinplate company, a subsidiary of the corporation, and the American Can company, whereby the latter is alleged to have secured its supply of tinplate at preferential prices.

"We decline to produce these contracts," R. V. Lindsay, chief counsel for the corporation, announced, "on the ground that they disclose the company's private business affairs with one of its customers."

The documents destroyed or missing consisted of contracts between the American Tinplate company and manufacturers of tinplate machinery, whereby the latter is alleged to have secured a five year contract between the tinplate company and the Sharon Steel company for taking the latter's output, and of similar contracts alleged to have been made by the American Sheet Steel company.
